Description

The Tallest Snake Slide Experience!

Create a long, flowing slide experience with dynamic movement using the Starglide Snake Right Slide – 10 Foot Deck Height. Designed for Starglide sectional playground slide systems, this slide features a snake-style right curve, delivering an extended, winding descent that enhances play value and visual appeal on tall playground structures.

Engineered specifically for 10-foot deck height playgrounds, this slide is commonly referred to as a 20-foot playground slide, reflecting its overall slide length rather than deck height. The snake-right configuration provides a more engaging ride than standard turn or veer slides, making it ideal for larger commercial playground layouts where space allows for longer slide paths.

This slide integrates seamlessly with compatible Starglide entry components, supports, exits, and runouts, making it suitable for both new playground installations and replacement

applications in high-traffic environments.

Key Features

- Designed for Starglide sectional playground slide systems
- Snake-style right slide configuration for extended, flowing motion
- Built for 10-foot deck height playground structures
- Approximate 20-foot slide length
- Integrates with compatible Starglide entry, support, exit, and runout components
- Ideal for new installations and replacement applications
- Commercial-grade playground slide construction
- Built for durability in high-traffic play environments
