Description

Add Depth to Your Playground!

Deliver an extended, flowing slide experience with improved visibility and accessibility using the Starglide Open Entrance Snake Right Slide – 10 Foot Deck Height. Designed for Starglide sectional playground slide systems, this slide combines an open entrance with a snake-style right curve, creating a long, engaging descent that adds motion and visual interest to tall playground structures.

Engineered specifically for 10-foot deck height playgrounds, this slide is commonly referred to as a 20-foot playground slide, reflecting its overall slide length rather than deck height. The open entrance enhances sightlines and ease of access from elevated decks, while the snake-right profile provides a winding, dynamic ride ideal for larger commercial play environments.

This slide integrates seamlessly with compatible Starglide supports, exits, and runouts, making it an excellent choice for both new installations and replacement applications in high-

traffic playgrounds.

Key Features

- Designed for Starglide sectional playground slide systems
- Open entrance design for improved visibility and accessibility
- Snake-style right slide configuration for extended, flowing motion
- Built for 10-foot deck height playground structures
- Approximate 20-foot slide length
- Integrates with compatible Starglide supports, exits, and runouts
- Ideal for new installations and replacement applications
- Commercial-grade playground slide construction
- Built for durability in high-traffic play environments
