01-03-0135	650 grill cover
Full grill	Separate SKU, not included with cover
Other accessories	Grill shelves and installation parts are separately specified

Model 01-03-0135 is a powder-coated cover accessory intended for the 650 series commercial park grill. This SKU supplies the cover only, not a complete pedestal grill or cooking station.

A matching cover is useful for specifying or replacing accessories on an existing grill system. Select according to the exact grill family, because the 630 and 650 assemblies have different intended compatibility.

The cover should be listed with the correctly identified grill model in a quote or maintenance order. The firebox, cooking grate, mounting post, installation hardware and utility shelf are not included merely by purchasing this replacement cover.
