Description

Unique Durable Layout

The Triangle Plastic Platform – 48” x 48” is a durable structural deck component designed for commercial playground systems. Its triangular shape allows for unique layout configurations, making it ideal for connecting multiple play elements such as slides, climbers, bridges, and tube components.

Measuring 48 inches x 48 inches, this platform provides a stable standing surface while enabling creative playground designs that maximize space and flow. The molded plastic construction offers excellent durability, weather resistance, and long-term performance in high-traffic environments.
