https://www.dunriteplaygrounds.com/store2/71761-Turning-Tube-Slide-9-Foot-Deck

Product Image

Description

Tube slide for a 9 foot deck height elevation, with a 90 degree turn.
26" diameter tube size.
Entrance Panel dimension 36.25 x 36.25
Slide projects outward from deck approximately 40".
Left to right measurement, from outside of panel to end of slide is 199.40".
OPTIONAL: Straight section and the elbow (top sections only) may be changed to a CLEAR window top! (Additional)

FOR RESIDENTIAL USE ONLY, such as attached to a backyard playset. This slide is not designed to meet IBC requirements for public venue use.

Slides must be installed over impact attenuating safety surfacing. Depending on your specific installation needs, there may be a variety of materials and methods of surfacing available. Please see CPSC Publication 324 or CZ614 (Can-Spec) for information and guidelines. Customer is responsible to ensure safety guidelines are followed, including necessary perimeter or safety zone areas required.
