Product Image

Description

8 foot EXTRA HEAVY DUTY TABLE DIAMOND WITH UMBRELLA HOLE (238-V8U) corresponds to the 2026 exact-model description: 8' EXTRA HEAVY DUTY TABLE, DIAMOND, WITH UMBRELLA HOLE. The specifications below identify this SKU rather than every available option in the manufacturer family.

Exact model specifications

Catalog model	238-V8U
2026 exact-model listing	8' EXTRA HEAVY DUTY TABLE, DIAMOND, WITH UMBRELLA HOLE
Length	8 feet
Top and seat pattern	Diamond
Umbrella hole	Included in exact model listing

Finish	Thermoplastic-coated seating and tabletop; powder-coated frame
Frame	2-3/8 inch O.D. welded steel
Brace	1 inch O.D. steel
Hardware	Stainless steel
Layout	Walk-through picnic table

Configuration comparison

This model	8-foot diamond table with umbrella hole
Other patterns	Slat rolled, perforated and diamond are separate exact-model options
Length variations	Six- and eight-foot models are distinct catalog SKUs
Umbrella	Umbrella hole is not an included umbrella
Installation	Portable or surface-mount design, confirm anchor hardware independently

This 8-foot 238 extra-heavy-duty rectangular picnic table has the diamond thermoplastic seating pattern and the umbrella-hole configuration identified by its U suffix. Manufacturer documentation specifies a fully welded 2-3/8-inch outside-diameter frame, one-inch outside-diameter braces and stainless-steel hardware. The table is a walk-through design finished with thermoplastic seating and a powder-coated metal frame. The umbrella opening does not mean an umbrella is provided. The family also includes different top patterns and optional solid top configurations, each requiring the proper product selection. Buyers should compare site clearances, the intended table length and the exact anchoring arrangement before specifying portable or surface mounting. Accessible designs are offered as separate table products and are not implied by this standard model.
