Description

The 8 foot MULTI PEDESTAL ADA MALL TABLE SURFACE PERFORATED PC FRAME, model 346SMH-P8, is an eight-foot ADA multi-pedestal mall picnic table with a perforated table pattern, powder-coated frame and surface mount mounting. Its extra-length accessible configuration is distinct from standard mall tables and from models with a different surface pattern. The manufacturer's 2026 price list specifically identifies the eight-foot accessible version and the listed installation method.

Exact model specifications

Model	346SMH-P8
2026 listed configuration	8' MULTI PEDESTAL ADA MALL TABLE, SURFACE MOUNT, PERFORATED - PC FRAME

Collection	Multi-pedestal mall tables
Table length	8 feet
Accessibility configuration	ADA table
Top pattern	perforated
Mounting	surface mount
Frame	Powder-coated steel

Configuration and companion comparison

Selected table	8-foot perforated accessible mall table, surface mount
Other pattern	Perforated or diamond, distinct model numbers
Other mounting	346SH-P8 (separate SKU)
Accessible layout	Maintain the approved accessible site clearances

Compare the perforated top with the alternate pattern offered on separately listed SKUs. The manufacturer also distinguishes inground and surface-mounted pedestal versions, so the correct mounting package must match the approved site construction. As with other accessible site furnishings, layout clearance and firm, stable approach surfaces require project-specific review. Do not assume foundation hardware, anchors or accessible surfacing are included unless the exact-model submittal confirms them. A matching table in a different pattern or with a different mount is a separate product, not a color option on this SKU.
