## Product Image

## Description

### Cadence 13-Note Tenor Marimba with Recycled Inground Posts | CADE-IG-REC

Bring warm, resonant musical play to a park, school or accessible outdoor music area with the Freenotes Harmony Park Cadence. This outdoor tenor marimba features 13 wide coated-fiberglass keys tuned to a C major pentatonic scale. Its reinforced recycled-plastic resonator base produces deep, earthy, percussive tones, and two black mallets are supplied for playing the instrument.

Model **CADE-IG-REC** is the inground-mounted Cadence with recycled-plastic posts, not the steel-post, surface-mount or portable version. Its coated fiberglass keys and recycled construction make it suitable for interactive outdoor music environments. Coordinate installed height and site work with the manufacturer's installation instructions.
