Product Image

Description

Large Granite NatureROCKS Freestanding Boulder Climber

Model GRN-LG adds realistic rock-climbing texture and movement challenges to parks, school playgrounds and naturalized play areas. The large granite climber has a manufacturer-listed climbing height of 8 feet. The weather-resistant, glass-fiber-reinforced concrete (GFRC) shell has a hand-painted granite appearance modeled on natural rock outcroppings. Built-in forklift channels support site handling.

Model specifications

- Model: GRN-LG
- Finish: natural granite appearance
- Construction: glass-fiber-reinforced concrete
- Size category: large
- Manufacturer-listed climb height: 8 feet
- Published group capacity: Up to 8 children
