Product Image

Description

Freestanding Red Crawl Tunnel, 02-07-0057-RED

The red freestanding Crawl Tunnel is a molded playground crawling and imaginative-play component with side portholes. It shares the same published dimensions and construction family as the green version.

Verified product details

- Freestanding rotomolded plastic crawl tunnel in red.
- Overall dimensions published as 46 in. long by 28 in. wide by 32 in. high.
- Manufacturer reseller lists a 15 ft by 17 ft play use zone.
- Portholes in the tunnel provide visibility and ventilation.
- Includes surface mounting footers and ground spikes.
- Inground mounting kit 02-07-0079 is a separate accessory.

Comparison and mounting options

Model / option	Product or use	Selection detail
02-07-0057-RED	Red crawl tunnel	Color selection with standard crawl tunnel construction
02-07-0057-GRN	Green crawl tunnel	Same dimensions and construction; color variation only
02-07-0079	Inground mounting kit	Separate accessory for below-grade fixing

Installation and safety: Verify the current playground use zone and surfacing depth before installation. Select the mounting method based on the approved installation plan.
