This assembly	Bench Panel Assembly, playful palette

Other palette SKU	02-07-5014-GRN
Main UPlayToday play equipment	Specified separately; verify model-level compatibility

Choose the playful assembly to coordinate with the specified UPlayToday structure. The alternative palette carries its own SKU, so colors should not be swapped by assuming the other item is included. Check the existing play-unit configuration and the applicable installation drawings for attachment points and replacement compatibility; the catalog entry alone does not establish universal fit across UPlayToday models.
