Description

The Sapling In Ground Package, 02-08-0171, is the inground package listed for the Sapling playground product. It is an installation accessory used when planning the foundation and anchoring for that specific play unit, rather than the play equipment itself. The exact kit identity is documented in the 2026 UltraPlay price list.

This SKU should be specified alongside the matching Sapling product and the project's surfacing and foundation details. Do not assume it is interchangeable with installation packages for other Discovery Center structures or with a surface-mount conversion. Review the manufacturer installation instructions and approved submittals for footing placement, hardware and excavation requirements before construction.
