Description

Pasadena 2-foot modular curved-angle outdoor bench | 14-P2

This two-foot Pasadena curved-angle bench is a compact perforated-steel seating segment for modern modular bench arrangements in parks, courtyards and gathering areas.

Verified product specifications

Model	14-P2
Overall width	23 inches
Depth	20-3/4 inches
Seat height	18 inches
Structure	1/4-inch plate steel reinforced by a welded 1/4 by 6-inch strip
Finish	Powder-coated steel
Mounting	Portable or surface mount configuration

Product selection and comparison

Unlike a straight Pasadena bench segment, the 14-P2 curved-angle segment creates a directional turn within a modular seating run. Verify the adjoining segment and mounting configuration for the planned layout.

Confirm exact configuration, installation instructions and site conditions prior to ordering or installation.
