Description

Pagoda Bells Outdoor Musical Instrument with Recycled Post | PBEL-IG-REC

The Pagoda Bells are an outdoor melodic percussion instrument with eight vertically arrayed stainless steel bells. Two mallets allow visitors to play sustained, bright tones. Model PBEL-IG-REC specifies an in-ground recycled-content mounting post rather than the separate surface-mount or steel-post configurations.

Verified model specifications

Model	PBEL-IG-REC
Instrument	Pagoda Bells
Notes	8
Bell material	Stainless steel

Tonal character	Bright and sustaining
Mallets	2 black mallets included
Mounting	In-ground recycled post
Approximate instrument size	13 in diameter x 66 in high; finished installed height varies

Selection and comparison

The Pagoda Bells deliver sustained metallic tones, unlike the low-pitched seven-note Contrabass Chimes. Mounting configurations also differ: PBEL-IG-REC is the recycled-post inground option; confirm post type when comparing surface-mount or steel-post versions.

Verify current installation requirements, site layout, protective surfacing and the supplied product revision before ordering.
