Description

Horizontal Ladder for Ages 5 to 12 | PHLAD

A freestanding commercial playground horizontal ladder for traversing overhead rungs and developing upper-body coordination. Its powder-coated steel framing and cast aluminum corner connectors are specified for in-ground installation. Provide appropriate impact-attenuating surfacing throughout the designated use area.

Verified model specifications

Model	PHLAD
Recommended ages	5 to 12 years
Use zone	24 ft x 14 ft
Listed weight	220 lb
Frame	Powder-coated steel with cast aluminum corner connectors

Mounting	In-ground
Safety surfacing	Required

Selection and comparison

Compare PHLAD with PJHLAD, the junior horizontal ladder intended for ages 2 to 5. Their age classifications and required use zones differ; choose by intended users rather than considering them equivalent replacement models. The junior ladder has an 18 ft x 14 ft use zone.

Verify current installation requirements, site layout, protective surfacing and the supplied product revision before ordering.
