Description

The SnugPlay Primary kit is an introductory modular playground collection that lets children build, connect and rearrange large loose parts for creative movement, social play and problem solving.

Features and ordering details

- Included: 2 wave pieces, 2 bump pieces, 1 cog, 1 wall, 1 spider connector and 50 noodles
- Approximate planned play space 12 by 12 feet, subject to site-specific review
- Published kit weight approximately 161 lb
- Individual pieces can be combined and taken apart as part of supervised play

Compare configurations

Model	Configuration	Selection guidance
SNUG-PRM	Primary kit	Smaller introductory

		assortment of waves, bumps, cog, wall, spider and noodles
SNUG-MMD	Mini Mound	Four-piece mound terrain set rather than Primary kit components
SNUG-MDP	Standard Mound Plus	Eleven-piece mound-based terrain assortment

This is a loose-parts kit, not a fixed play structure. Provide active supervision and apply current site design and safety instructions.
