Product Image

Description

Eight-Foot Zig Zag Balance Beam | TZBAL-8

This zigzag playground balance beam provides a narrow, changing-direction walking route for children to practice balance and coordination. Its nature-themed punched steel walking surface uses an impact-resistant, UV-stable thermoplastic coating and mounts in the ground using two support posts.

Verified model specifications

Model	TZBAL-8
Recommended ages	2 to 12 years
Beam size	8 ft long x 4 in wide
Finish	Thermoplastic-coated punched steel
Beam color	Green
Supports	Two 2-3/8 in in-ground posts
Use zone	20 ft x 13 ft
Listed weight	50 lb

Selection and comparison

Unlike the overhead-handhold activity of a horizontal ladder, TZBAL-8 is a ground-level balance event. The zigzag route adds directional changes. Provide the manufacturer-specified safety surfacing and use zone.

Verify current installation requirements, site layout, protective surfacing and the supplied product revision before ordering.
