Description

Whirl and Twirl Outdoor Spinner | UP100

The Whirl and Twirl is a playground spinning bowl that children can rotate with assistance or by shifting position in the inclined seat. A rounded bowl rim helps with grip and access, while openings in the bowl allow drainage. The manufacturer lists this base version without the optional clicker.

Verified model specifications

Model	UP100
Activity	Rotating tilted spinner bowl
Listed weight	34 lb
Use-zone diameter	15 ft 7 in
Installation	In-ground
Surface protection	Protective surfacing required
Sound feature	Standard model; no clicker identified

Selection and comparison

UP101 is the corresponding Whirl and Twirl version with a clicking sound feature, whereas UP100 is the standard spinner. The distinction is the audible mechanism, not an alternate material choice; no directional related-ID link is added on that basis.

Verify current installation requirements, site layout, protective surfacing and the supplied product revision before ordering.
