Railroad Crossing Sign $248.00

https://www.dunriteplaygrounds.com/store2/74456-Railroad-Crossing-Sign

Product Image

Description

The Railroad Crossing Sign, model UP127, is the UltraPlay railroad crossing sign intended as a traffic-learning cue for children's tricycle paths and imaginative road-play settings. It supplies one individual sign legend, not a complete assortment of road signs. Use its recognizable traffic symbol to give children an opportunity to practice stopping, yielding and recognizing marked areas within supervised play.

Model specifications

Exact manufacturer model	UP127
2026 catalog identification	Railroad Crossing Sign
Published shipping weight	10 lb
Sign legend	Railroad Crossing
Application	Playground tricycle-path and traffic-themed play areas
Product type	Individual activity sign, not a four-sign package

Configuration and related choices

This individual sign	Railroad Crossing sign, UP127
Other traffic legends	Stop (UP125), Yield (UP126), School Zone (UP128)
Bundled set	UP129 four-sign set is a separate manufacturer SKU

Other standalone UltraPlay traffic signs include Stop, Yield, Railroad Crossing and School Zone models, allowing a site designer to choose only the messages needed for a route. The manufacturer also lists a four-sign set under a different SKU. Position activity signage in a supervised, age-appropriate circulation layout and confirm installation needs before ordering.
