Description

NatureROCKS Pike's Peak Climber | Model UP503

Bring a naturalistic climbing challenge to commercial playgrounds, schoolyards and park play areas. The Pike's Peak NatureROCKS climbing assembly combines a durable glass-fiber-reinforced concrete rock surface with play features that encourage climbing, balance and coordinated movement. This configuration features small granite boulder and v-shaped ladder net and is specified for ages 5 to 12.

Model-specific specifications

- Model: UP503
- Age range: 5 to 12 years
- Published user capacity: 3 to 4
- Published climbing height: 3 ft
- Construction: glass-fiber-reinforced concrete and climbing components
