Description

Imaginative Play!

The 30 Inch x 6 Foot Crawl Tube Assembly is a large-diameter playground tunnel designed to promote active play, exploration, and imaginative movement within commercial playground systems. With a 30-inch diameter and 6-foot length, this crawl tube provides expanded interior space for a more comfortable and accessible play experience.

Constructed for durability and long-term performance, this crawl tube assembly is ideal for high-traffic environments and integrates seamlessly into modular playground layouts. It can function as a connector between platforms or as a standalone feature that encourages crawling, coordination, and social interaction.
