Description

Enhance Your Playground

Add excitement and safety to your playground with this 30-inch diameter left 90° tube slide, specifically designed for 4-foot deck heights. The enclosed tube design creates a thrilling ride experience while providing added security, making it a popular choice for both residential and commercial playgrounds.

This left-turn tube slide features a smooth 90-degree curve that enhances the ride while maintaining a controlled, safe descent. Constructed from high-quality, weather-resistant materials, it’s built to withstand heavy use and outdoor conditions.

Perfect for backyards, schools, parks, and recreational facilities, this 4 ft deck height tube slide delivers both durability and fun. Its fully enclosed design helps keep children safely within the slide path, offering peace of mind for parents and operators alike.
