Description

The Tuned Drums come as a set of five, all different sizes and sounds. Drums can also be purchased individually so you can make up your own set or add to the collection. Our Tuned Drums have a distinctive Afro-Cuban influence; they are similar to traditional conga drums and have a specially shaped sound chamber that amplifies the sound. The drums are played using the hands to create a tom-tom like sound, creating an exciting avenue for players to create their own music and produce a big, open, resonant sound. Drumming captures the heart of most who encounter it.
