HOOP JUMP MINI INGROUND $418.00

https://www.dunriteplaygrounds.com/store2/79447-HOOP-JUMP-MINI-INGROUND

Product Image

Description

HOOP JUMP MINI INGROUND, exact 2026 BarkPark model TBARK-437, is the mini hoop-jump dog agility obstacle supplied for inground installation. It gives handlers a physical jump target for practicing approach, direction and confidence with dogs in a managed outdoor course.

Exact model specifications

Manufacturer model	TBARK-437
2026 listed configuration	HOOP JUMP - MINI, INGROUND
Obstacle	Mini hoop jump
Mounting	inground
Activity	Guided dog agility jump training
Height adjustments	Manufacturer-size-specific hoop arrangement

Configuration and ordering comparison

This SKU	Mini hoop jump, inground
Alternate installation	TBARK-437SM (separate product)

Other obstacle sizes	Small, mini and adjustable jumps are distinct models

The manufacturer offers mini and small hoop jumps as different size categories, so they should not be considered interchangeable. Plan the correct spacing and approach to avoid conflicts with neighboring equipment and pedestrian traffic. Inground and surface mounting use different installation provisions and distinct product codes; selection should follow the applicable drawing. Other agility activities, including Dog Walk, Weave Posts and grooming platforms, can create a progressive course but are not supplied with this individual hoop-jump SKU. Check ground surface, visibility and supervision needs for the dog sizes served by the park.
