Description

Quick Ship Structure STR-352280 is ideal for those who want all the bells and whistles without taking up a lot of space. This Quick Ship offers a 3' challenging Ring Climber and a Side Winding Upgraded Curved Slide as well and escalates to a 6' Spiral slide for more excitement. Scale to the top of the Alpine Climber or take a twist and turn on the Flag Panel. The interactive Bubble Panel offers social interaction and creative play with a fun caterpillar design. The Ground Level Ant Maze and Half Gear Panels offers endless hours of play time with friends to see who can get the Ant through the Maze first or Spin the Most Gears! This structure meets ADA Guidelines and is commercially compliant with ASTM & CPSC guidelines. The Posts are 13 gauge galvanized Allied Steel with Gatorshield™ for superior strength properties and corrosion protection. Powder coating is added on top for color and added protection. This structure is very safe. We use a two -piece clamp system that provides flexibility in installation. Installation is made simple with the recessed hex that holds the nut in place. This clamp system has also been designed to prevent movement once installed. The Panels are 100% Polyethylene ¾" thick plastic sheets. They provide strength and durability and are resistant to delaminating, corrosion resistance, and UV stability. This will help keep your playground looking new longer! The critical fall height is 6' so this structure is ideal if you're looking for a commercial compliance and budget conscious for Elementary Schools,

churches, HOAs, YMCAs and Apartments.

Assembly required. Truck Delivery. Inground mount
