Description

Great Storage for the Playground

Keep playgrounds and activity spaces clean, organized, and safer with the 4-Rise Horizontal Sneaker Keeper with Cap. This standalone shoe storage unit is designed for play areas where children remove footwear before entering, providing a convenient and durable place to store shoes neatly in one designated location.

Featuring four horizontal storage rises, this sneaker keeper accommodates more pairs of shoes while helping reduce clutter and trip hazards. Shoes stay off the ground, improving cleanliness and simplifying transitions in and out of play zones. The included cap adds a finished, kid-friendly appearance while helping protect exposed edges.

Ideal for schools, daycares, churches, indoor playgrounds, and community centers, the 4-Rise Horizontal Sneaker Keeper supports organized, high-traffic environments where kids are constantly on the move.
