Related configuration comparisons

Selected SKU	6 ft, surface mount
Other sizes	4-, 6- and 8-ft rails are separate models
Mount alternatives	59S inground and 59SM surface mount
Material family	Other Richmond variants use recycled-plastic components and different SKUs

This 6-foot Richmond leaning rail is the surface mount version. Unlike a backed or backless bench, the leaning rail provides a compact standing-rest surface along a path or pedestrian waiting area.

The Richmond manufacturer range is available in 4-, 6- and 8-foot lengths and two installation methods. Its powder-coated metal design coordinates with Richmond outdoor furnishing styles without implying that a companion bench or table is included.

Select the mounting configuration according to whether posts can be embedded or must be fastened to an existing suitable substrate. Specify powder-coat finish at ordering. Recycled-plastic rail variants should be selected under their own catalog models rather than treated as a color selection for this steel model.
