Green Thumb Planter Box inground

https://www.dunriteplaygrounds.com/store2/80293-Green-Thumb-Planter-Box-inground

Product Image

Description

The Green Thumb Planter Box inground, model EC-022, is a freestanding UltraPlay activity for garden-themed early-childhood activity in outdoor play environments. Unlike a replacement component or installation-only package, this entry identifies the actual play product. Its name and activity type distinguish it from the manufacturer's neighboring climbers, spinners, playhouses, garden activities and musical features.

Related garden activity	EC-023 potting shed
Site preparation	Inground mounting included
Project review	Confirm clearance, surfacing and installation documents

The manufacturer's 2026 listing identifies the product as green thumb planter box includes inground mount. For a complete site design, use the exact manufacturer model to obtain the applicable play-area clearance, suitable age guidance, safety surfacing and foundation details. Do not assume that an unlisted inground kit, different colorway or complementary activity is included. Coordinate related play experiences by function while retaining this SKU's distinct configuration.
