Product Image

Description

ActionFit Chin Up Low Surface Mount | UP227SM

The UltraSite ActionFit UP227SM Chin Up Low is a surface-mounted outdoor fitness station for upper-body muscle training. Its single chin-up bar is illustrated at a 7-foot height in the manufacturer's exact-model product release. Curved hand grips offer several hand positions for varied exercise challenges. UP227SM is the surface-mount configuration of the Chin Up Low, distinct from inground model UP227S.
