Description

Enhance Play Value!

Add smooth motion and directional flexibility to tall playground structures with the 30 Inch Diameter Slide – 8 Foot Deck Height, Curved (Left or Right). Designed for commercial playground environments, this slide features a curved profile that gently guides riders to the left or right, increasing play value while maintaining a controlled, comfortable descent.

Built for 8-foot deck height playgrounds, this 30-inch diameter tube slide provides a spacious sliding surface suited for older children and high-capacity play areas. The curved configuration allows playground designers to control exit direction and optimize layouts on taller structures, making it ideal for schools, parks, churches, daycares, and community playgrounds.

Durable and reliable, this slide is well-suited for new installations and replacement applications in demanding play environments.
