## Product Image

## Description

### Enhance Play Value

Add smooth motion and directional flexibility to extra-tall playground structures with the 30 Inch Diameter Slide – 15 Foot Deck Height, Curved (Left or Right). Designed for commercial playground environments, this slide features a curved profile that gently guides riders to the left or right, delivering enhanced play value while maintaining a controlled, comfortable descent.

Built for 15-foot deck height playgrounds, offering a spacious sliding surface suitable for older children and high-capacity play environments. The curved configuration allows playground designers to manage exit placement and optimize layouts on large-scale, complex play systems—ideal for schools, parks, churches, and municipal playgrounds.

Durable and dependable, this slide is well-suited for new installations and replacement applications in demanding, high-traffic environments.
