Description

Add Dynamic Motion to Your Playground

Add dramatic motion and precise directional control to taller playground structures with the 30 Inch Diameter Slide – 12 Foot Deck Height, Hook 90 Degrees Left. Designed for commercial playground environments, this slide features a 90-degree hook turn to the left, creating an exciting directional change while maintaining a smooth, controlled descent from elevated platforms.

Built for 12-foot deck height playgrounds, this slide provides a spacious sliding surface ideal for older children and high-capacity play areas. The hook-left configuration allows playground designers to manage exit placement efficiently and maximize play value in compact or complex layouts—perfect for schools, parks, churches, and municipal playgrounds.

Durable and dependable, this slide is suitable for new installations and replacement applications in demanding, high-traffic environments.
