Description

Exciting Play Value!

Add bold directional movement and exciting play value to extremely tall playground structures with the 30 Inch Diameter Slide – 16 Foot Deck Height, Hook 90 Degrees (Left or Right). Designed for commercial playground environments, this slide features a 90-degree hook turn, available in left or right orientation, delivering a dramatic change in direction while maintaining a smooth, controlled descent from elevated platforms.

Built for 16-foot deck height playgrounds, this slide provides a spacious sliding surface ideal for older children and high-capacity play systems. The hook configuration allows playground designers to precisely manage exit placement and optimize layouts on large, complex structures—making it a strong choice for schools, parks, churches, and municipal playgrounds.

Durable and dependable, this slide is suitable for new installations and replacement applications in demanding, high-traffic environments.
