Description

"

Dynamic Zig Zag Movement!

Add dynamic movement and visual excitement to elevated playground structures with the 30 Inch Diameter Slide – 10 Foot Deck Height, Snake Zig Zag (Left or Right). Designed for commercial playground environments, this slide features a snake-style zig zag path, available in left or right orientation, creating an engaging back-and-forth ride that increases play value while maintaining a smooth, controlled descent.

Built for 10-foot deck height playgrounds, this slide offers a spacious sliding surface suitable for older children and high-traffic play areas. The zig zag configuration allows playground designers to maximize slide length and excitement while managing exit placement in compact or complex layouts—ideal for schools, parks, churches, and municipal playgrounds.

Durable and dependable, this slide is well-suited for new installations and replacement applications in demanding, high-use environments.

Key Features
