Description

Versatile & Dependable

Add subtle directional movement and layout flexibility to mid-height playground structures with the 30 Inch Diameter Slide – 6 Foot Deck Height, Veer (Left or Right). Designed for commercial playground environments, this slide features a gentle veer, available in left or right orientation, providing a smooth change in direction without the intensity of a full turn.

Built for 6-foot deck height playgrounds, this slide offers a spacious sliding surface suitable for a wide age range. The veer configuration allows playground designers to manage exit placement while maintaining a compact footprint, making it ideal for schools, parks, churches, daycares, and community playgrounds.

Durable and dependable, this slide is well-suited for new installations and replacement applications in high-traffic play environments.
