Product Image

Description

Straight tube slide for an 11 foot elevation/drop. This slide is intended for use as an embankment slide only.
26" diameter tube size.
Slide projects (approximately) 197" from deck.
Entrance Panel dimension 36.25 x 36.25
OPTIONAL: Straight section top (only) may be changed to a CLEAR window top! (Additional)

FOR RESIDENTIAL USE ONLY, such as attached to a backyard playset. This slide is not designed to meet IBC requirements for public venue use.

Slides must be installed over impact attenuating safety surfacing. Depending on your specific installation needs, there may be a variety of materials and methods of surfacing available. Please see CPSC Publication 324 or CZ614 (Can-Spec) for information and guidelines. Customer is responsible to ensure safety guidelines are followed, including necessary perimeter or safety zone areas required.
