Product Image

Description

46-inch rubber playground wear mat | 161292

Rubber wear mat for frequently traveled playground surfacing areas, including swing paths and slide exits. It supplements an appropriately designed protective surfacing system.

Product specifications

Published mat size	46 in by 46 in
Model	161292
Application	High-traffic playground wear areas
Installation limitation	Not a substitute for compliant impact-attenuating surfacing

Product selection and comparison

Unlike standard loose-fill surfacing, this localized wear mat helps protect heavily traveled spots. It must not be installed over hard surfaces in place of suitable protective surfacing.
