Product Image

Description

SINGLE SIDED TRASH CAN HOLDER with 30 GALLON TRASH CAN galvanized (G681-T) corresponds to the following manufacturer 2026 price-list configuration: SINGLE SIDED TRASH CAN HOLDER W/ (1) 30 GALLON TRASH CANS - galvanized. The specification and comparison details below distinguish what is supplied from separately ordered alternatives.

Exact-model specifications

Exact SKU	G681-T
2026 manufacturer price-list description	SINGLE SIDED TRASH CAN HOLDER W/ (1) 30 GALLON TRASH CANS - galvanized
Holder arrangement	Single sided
Included galvanized 30-gallon cans	1
Post outside diameter	3-1/2 in
Adjustable collar outside diameter	4 in
Steel holder bar	1/2 in

Mounting	Inground galvanized assembly

Configuration and accessory comparison

Selected SKU	Single sided with 1 can(s)
G681	Single-sided holder without can
G681-T	Single-sided holder with one 30-gallon can
G682	Double-sided holder without cans
G682-T	Double-sided holder with two 30-gallon cans
Galvanized can lids	Separately ordered unless listed expressly

This galvanized refuse fixture uses a single-sided holder and includes 1 30-gallon can(s). The 2026 manufacturer entry distinguishes these inclusions explicitly.

The UltraSite catalog identifies a 3-1/2-inch outside-diameter inground post, a 4-inch adjustable collar and a 1/2-inch steel support bar. The assembly is intended for accessible collection and maintenance in parks and recreational sites.

Models with a T suffix include the stated can count; holder-only models must not be described as complete galvanized-can packages. Verify covers and any site-specific hardware separately rather than assuming them included.
