MAXIMO Playgrounds are great solutions for organizations such a parks and large schools with large space and higher volume of users. These types of play spaces frequently need to provide exciting play with safety, lower maintenance and higher child capacity. The larger footprint complements better flow for play. MAXIMO playgrounds provide your with peace of mind as a workhorse of the industry. With its large supports and broad platforms, they can handle the end user volumes without constricting the excitement and enthusiasm found in the flow of play. The predictable reliability of the materials combined with skilled craftsmanship at the factory produces equipment that is durable and requires less maintenance. Your play space looks great and is available and open with fewer disruptions. MAXIMO models are artistically crafted with your choice of 5" OD galvanized steel or aluminum support posts. These, along with the steel handrails, barriers, gates and climbers are also coated with this baked on polyester powder coat finish for a lifetime of protection against the elements. The three dimensional slides, panels and climbers are rotationally molded using virgin compounded

resins that feature greater UV breakdown resistance than dry blended resins. The HDPE sheet plastic climbers and activities are specifically produced IN HOUSE for higher quality control.
