Description

Age Group: 5-12
Activities: 33
Capacity: 106
Use Zone: 56'-11" x 56'-5"
Fall Height: 8'-0"

THEME PLAY Playgrounds furnish themed based play components that give you the opportunity to create a playground that mimics a castle, a sailing ship, a wild west fort or a space station. WIth its large supports, broad supports and a wide spectrum of colors to choose from, a THEME PLAY Playground can be the focal of your family park. Based on our powerful MAXIMO Series, this system can handle end user volumes without constricting excitement and enthusiasm found in the flow of play. The time tested reliability of the materials combined with skilled craftsmanship at the factory produces equipment that is durable and requires less maintenance. Your play space looks great and is available and open with fewer disruptions. THEME PLAY models are artistically crafted with your choice of 5" OD galvanized steel or aluminum support posts. These, along with the steel handrails, barriers, gates and climbers are also coated with this baked on polyester powder coat finish for a lifetime of protection against the elements. The three dimensional slides, panels and climbers are rotationally molded using virgin compounded resins that feature greater UV breakdown resistance than dry blended

resins. The HDPE sheet plastic climbers and activities are specifically produced IN HOUSE for higher quality control.
