Description

Age Group: 2-5
Activities: 5
Capacity: 4-8
Use Zone: 33'-7" x 16'-8"
Fall Height: Ground Level

TODDLER TOWN provides fun, safe and cost effective playgrounds for toddlers and preschools, church and religious organizations, child care facilities and schools. Typically these playgrounds need to provide a lot of activity in small or medium sized space. The cost of purchasing, shipping and installation needs to be budget minded! TODDLER TOWN playgrounds offer you elements such as an abundance of ground based play that focuses on cognitive learning, fine motor skills and social quality. These elements are arranged in a slightly smaller footprint to accommodate smaller play spaces that facilitate a better visual line for supervision. In addition to providing big play in a smaller space, you will enjoy lower equipment, shipping and installation costs than with standard sized playgrounds.

TODDLER TOWN playgrounds are skillfully crafted with your choice of 2.375" OD galvanized steel or aluminum support posts which are, along with all of the steel handrails, barriers, gates and climbers- coated with a baked on polyester powder coat finish for a lifetime of protection

against the elements. All steel decking and stairs are encased in a long lasting PVC coating. The three dimensional plastic slides, panels, roofs and climbers are rotationally molded using virgin compounded resins that feature greater UV breakdown resistance than dry blended resins. The HDPE sheet plastic climbers and activities are specifically manufactured IN HOUSE for a higher quality control!
