Description

Fun for Younger Children

Create a safe and engaging sliding experience for younger children with the 32 Inch Deck Tot Triple Rail Slide. Designed specifically for tot and early childhood playgrounds, this slide features a triple rail design that provides added guidance and security for smaller riders.

Built for 32-inch deck height platforms, this slide offers a gentle slope and controlled descent ideal for toddlers and preschool-aged children. The triple rail sides help keep children properly positioned while sliding, making it a popular choice for daycares, preschools, churches, early learning centers, and tot lots.

Durable and easy to integrate into compact play structures, the Tot Triple Rail Slide supports confident play while meeting the needs of supervised, age-appropriate environments.
