Description

Smooth, Twisting Ride

Create an exciting playground experience with the 6 Foot Deck Height Spiral Slide – Open Entrance (139"). Designed for commercial playground environments, this spiral slide delivers a smooth, twisting ride while the open entrance allows for easy access and clear visibility at the top of the slide.

Built for 6-foot deck height platforms, the spiral configuration maximizes slide length within a compact footprint, increasing play value without requiring additional space. The open entrance design is ideal for playgrounds that prefer an unobstructed entry point while still offering engaging spiral motion.

Durable and engineered for daily use, this slide is a great choice for schools, parks, churches, daycares, and community playgrounds, whether for new installations or replacement projects.
