Description

Long, Spiral Experience

Create a premium sliding experience on taller playground structures with the 8 Foot Deck Height Spiral Slide with Hood (320"). Designed for commercial playground environments, this extended spiral slide delivers a longer, more exciting ride while the hooded entrance provides shade, comfort, and proper rider positioning.

Built for 8-foot deck height platforms, the 320-inch slide length significantly increases ride time and engagement compared to shorter spiral slides. The spiral configuration allows for this extended length while maintaining an efficient footprint, making it ideal for schools, parks, churches, daycares, and community playgrounds seeking a standout slide feature.

Durable and engineered for daily use, this spiral slide is perfect for new installations or replacement applications where safety, excitement, and longevity are priorities.
