Description

Extended Spiral Experience!

Deliver a long, exciting sliding experience with clear visibility and easy access using the 8 Foot Deck Height Spiral Slide – Open Entrance (320"). Designed for commercial playground environments, this extended spiral slide provides a smooth, twisting descent while the open entrance allows riders and supervisors full visibility at the top of the slide.

Built for 8-foot deck height platforms, the 320-inch slide length significantly increases ride time and play value compared to shorter spiral slides. The spiral configuration maximizes this extended length within an efficient footprint, making it an excellent choice for schools, parks, churches, daycares, and community playgrounds seeking a standout slide without an enclosed entry.

Durable and engineered for daily use, this slide is ideal for new playground installations or replacement applications where reliability, excitement, and supervision visibility are key

priorities.
