## Description

### Tallest Slide Experience!

Make a bold statement on tall playground structures with the 10 Foot Deck Height Spiral Slide with Hood (320"). Engineered for commercial playground environments, this extended spiral slide delivers a long, exciting descent while the hooded entrance provides shade, comfort, and proper rider positioning at the top of the slide.

Designed specifically for 10-foot deck height platforms, the 320-inch slide length significantly increases ride time and play value. The spiral configuration allows for this extended length within a controlled footprint, making it an excellent choice for schools, parks, churches, daycares, and community playgrounds looking to add a high-impact, premium slide experience.

Durable and built for daily use, this spiral slide is ideal for new installations or replacement applications where safety, excitement, and long-term performance are essential.
