## Description

### Tallest Extended Slide Experience

Deliver an exciting, extended sliding experience with clear visibility and easy access using the 10 Foot Deck Height Spiral Slide – Open Entrance (320"). Designed for commercial playground environments, this premium spiral slide offers a long, twisting descent while the open entrance allows for unobstructed entry and enhanced supervision at the top of the slide.

Built specifically for 10-foot deck height platforms, the 320-inch slide length dramatically increases ride time and play value compared to standard spiral slides. The spiral configuration allows this extended length within a controlled footprint, making it an excellent choice for schools, parks, churches, daycares, and community playgrounds seeking a high-impact slide without an enclosed entry.

Durable and engineered for daily use, this slide is ideal for new playground installations or replacement applications where visibility, reliability, and excitement are key priorities.
