Description

Multi-Level cooking grids provide control over food distance to the flame
Two bow tie burners evenly distributes heat across the entire cooking area - 18,000 BTUs each
Retract-a-rack provides more cooking space and easily moves when not in use
Flame thrower ignition ignites the bow tie burner by a spark. No batteries are necessary.
Flare control vaporizer moves drippings away from the burner and into the drip tray to prevent flare-ups
Control knob lights lights up the knobs when turned on
Easy slide drip tray collects drippings and easily slides out for cleaning
Heat zone dividers allows each burner area to cook at different temperatures
Double lined easy open lid double lining keeps more heat inside the grill
Interior cooking lights illuminate the cooking area for dark conditions

Enhance your outdoor cooking experience with the Broilmaster 26-Inch Stainless Steel Built-In Gas Grill. This grill features multi-level cooking grids, allowing you to control your food's proximity to the flame for perfect results. Powered by two bow tie burners, each delivering 18,000 BTUs, the heat is evenly distributed for consistent cooking.

The retract-a-rack provides extra cooking space and moves effortlessly to accommodate

larger cuts of meat. With a flame thrower ignition, you can spark the burners without needing batteries. The flare control vaporizer directs drippings away to prevent flare-ups, ensuring a safer grilling experience. The control knob lights up when turned on, adding convenience during nighttime grilling.

The easy slide drip tray collects drippings and slides out for hassle-free cleaning, while heat zone dividers enable different temperature cooking areas for versatile grilling. The Broilmaster 26-Inch Stainless Steel Built-In Gas Grill combines durability and functionality, making it a reliable addition to your outdoor kitchen.

Natural Gas
