Description

Rotisserie infrared burner perfect for high heat searing or slow spit roasting.
Three bow tie burners evenly distributes heat across the entire cooking area - 18,000 BTUs each
Retract-a-rack provides more cooking space and easily moves when not in use
Flame thrower ignition ignites the bow tie burner by a spark. No batteries are necessary.
Flare control vaporizer moves drippings away from the burner and into the drip tray to prevent flare-ups
Control knob lights lights up the knobs when turned on
Easy slide drip tray collects drippings and easily slides out for cleaning
Heat zone dividers allows each burner area to cook at different temperatures
Double lined easy open lid double lining keeps more heat inside the grill
Interior cooking lights illuminate the cooking area for dark conditions

Upgrade your grilling setup with the Broilmaster 34-Inch Stainless Steel Built-In Gas Grill. Designed for versatility, this grill features heat zone dividers that enable different temperature cooking areas, perfect for preparing multiple dishes simultaneously. The double-lined lid retains more heat, ensuring efficient and consistent cooking.

The multi-level cooking grids allow for precise control over your food's proximity to the flame,

while the three bow tie burners, each delivering 18,000 BTUs, ensure even heat distribution across the grilling surface. The retract-a-rack provides additional cooking space and is easily movable to accommodate larger cuts of meat. With flame thrower ignition, you can spark the burners without the need for batteries, and the control knob lights up when turned on, offering added convenience during nighttime grilling sessions.

For easy maintenance, the grill features an easy slide drip tray that collects drippings and slides out for effortless cleaning. Combining durability, functionality, and convenience, the Broilmaster 34-Inch Stainless Steel Built-In Gas Grill is the ideal addition to your outdoor kitchen

Natural Gas
