Description

Experience the next level of outdoor cooking with the Blaze Pizza Oven. Far more than your average pizza oven, the Blaze Pizza Oven is a top-of-the-line product destined to make your backyard the destination for deep-dish, flatbread, or any other style of pizza. But the versatility doesn’t stop there — not when your pizza oven can also cook up dishes like a sumptuous rack of lamb, mouth-watering steak, or whatever your heart desires, thanks to a vertical rotisserie rod and double cooking racks. Add two digital meat probes that ensure perfection with each cook, and you’ll see that this powerful (and sleek) outdoor oven can truly do it all.
